LXDE Desktop Live CD
For Intel-compatible, 32-bit computers

Please ensure that your computer is configured to boot from the CD drive, insert the disc into the CD drive, and restart your computer.

We hope that you enjoy using Fedora. If so, you can install it to your computer using the "Install to Hard Disk" icon on the desktop.

For further assistance, visit http://help.fedoraproject.org

MINIMUM REQUIREMENTS: 400 MHz 32-bit Intel-compatible processor with 768 MB RAM. Installation of the complete package set can occupy over 9 GB of hard drive space.

A complete machine-readable copy of the source code corresponding to portions of the accompanying Fedora 17 release is available upon request. This offer is valid to anyone in receipt of this information and shall expire three years following the date of the final distribution of this release by Red Hat, Inc.

To obtain such source code, send a check or money order in the amount of US $10.00 to:
Fedora Legal c/o Red Hat, Inc. | 1801 Varsity Drive | Raleigh, NC 27606 USA
Please write "source for Fedora 17" in the memo line of your payment.

You may also access a copy of this source code at: http://dl.fedoraproject.org/pub/fedora/linux/releases/17/Everything/source/


